

MISSOURI SWMD DISTRICT ANNUAL REPORT

FISCAL PERIOD: JULY 1ST - (PREVIOUS YEAR) TO JUNE 30TH - (CURRENT YEAR) | 2016

District N - Southwest Missouri Solid Waste Management District

SOLID WASTE MANAGEMENT DISTRICT ANNUAL REPORT

1 (a). What waste goals did the district have for the fiscal year period and what actions did the districts take to achieve these goals?

The primary goal of the District is to support efforts to divert material from going into landfills thru funding local reuse and recycling efforts, and to educate the public about solid waste management. During the District's Advisory Committee meeting this year, the group reviewed the District's Targeted Material List and Project List. The committee recommended to the District N's Executive Board to make changes to the list that correlated to MORA's Strive for 75 Campaign. Construction and Demolition Recycling, Electronic (EScrap), Organics and Composting from Food, Paint, and Textiles were all placed under the High Priority List for the District's Target Material. Electronic Waste and Paint (HHW) were already on the High Priority List. However, Organic/Composting Waste, and Demolition Waste were originally under Medium Priority, but the Board voted, based upon the recommendations, to move them to High Priority. Textiles and Mattresses were also added to High Priority, however they had never been on the Target List. Goal: Electronic collections has and will remain on the top of the District's targeted material list. The district strives to help reduce as much electronic material from the entering the waste stream as much as possible. Electronic recycling is a major concern for the district, especially in our lake areas. Action: For the 2016 Grants, the District and MDNR approved a grant proposal for the City of Aurora to hold a Fall and Spring Electronics collections. To my knowledge no electronics collections has been ever done in this City, and there are not any E-Waste companies within District N. The City of Aurora has a population of over 7,495 so there was a big need and a high demand for this event. The event was held this last Spring and Fall and was a tremendous success with only positive feedback, the goals for this grant were far exceeded. The actual tonnage diversion surpassed the estimated tonnage for this project. Planner, Moseley, attended both events, and constantly received positive comments from the citizens. The District also approved 2 grants for Electronic Recycling Collection points at 2 locations within District N. One will be located at the Tantone Industries, which is a sheltered workshop located in Branson. The other one will be located at EarthWise Recycling Center at Reeds Spring Schools. These collection points will provide citizens of Taney and Stone county will much needed access to Electronic Recycling within their respected counties. The District Planner has been working to encourage cities, communities and organizations within District N to coordinate electronic recycling collections. Also, the Planner has been working with cities within Stone County to help implement HHW collection events. No electronic, HHW or any other specific grant proposals are solicited. All proposals are welcomed. All grants are evaluated using the same criteria.

1 (b). What waste goals does the district have for the upcoming fiscal period and what actions does the district plan to take to achieve these goals. Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

The District will continue to help provide grants targeted to reducing, reusing, or recycling solid waste, or to educate the public about solid waste management. The District goals will implement the need to reduce waste and recycle items with emphasis being placed on the High Priority List. Grants have been received for the 2017 Grant Call. The City of Crane is requesting funds for a Electronic and Paint Recycling Event. Both items are on District's N High Priority List. There is such a demand for Electronic Recycling and Paint Recycling in our District especially in our lake areas. The City of Crane is located in Stone County, and situated close to our waterways. There is also no Paint Recycling within District N. Currently all good paint is encouraged to be donated to Habitat for Humanity or Mountain County Homes of Hope, but several citizens within our district do not have local charities to donate their paint. Also, Computer Recycling is requesting Electronic Collection bins for businesses within District N. District N currently has no permanent Electronic Recycling business located within the District. Both of these grants would provide citizens of District N with much needed access to Electronic Recycling, which is on the High Priority List. The District Planner has been working and will continue to work to encourage cities, communities and organizations within District N to coordinate electronic recycling collections. Also, the Planner has been working and will continue to with cities within Stone County to help implement HHW collection events. No electronic, HHW or any other specific grant proposals are solicited. All proposals are welcomed. All grant are evaluated using the same criteria.

2 (a). What recycling goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

	GOAL:	ACTION:
1	On the District Targeted Project List, Educational activities are at the top of the list. At every District N's board meeting, it is stressed that education is the key to successful recycling.	District N is constantly looking at new and different ways to educate the public on the importance of recycling. For 2016, the District approved 3 grants that help to implement recycling education within our school systems. At every District N board meeting, a report/update is given on the District's Education program/grant. The District Education grant is used for education programs that is available to all clubs, businesses, organizations, schools within the cities and counties of District N. The measurable outcomes of this project will be detailed in item #5 below. The District also has two grants for 2016 that are still in process that are located within 2 school districts. The Purdy schools is expanding their loading areas in their Recycling center to help with safety issues and to increase the flow of recycling material. This will help in the efficiency of their operations, which in turn, will help to increase the amount of materials they divert from the landfill. The other grant that was approved and almost completed was for EarthWise Recycling Center at Reeds Spring School. These much needed balers have enabled EarthWise to increase their flow of material. All three of these have helped to create and continue to create an educational opportunity to increase Recycling awareness.

2 (b). What recycling goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve these goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals?

A major goal as listed above and still continues for the District is to expand the Education programs throughout our District. Education is the major tool to use to grow our programs within our District in both quantity and quality. Education is the key for increasing recycling rates to reinforce the need to make the right choices every day, which is critical to the success of every recycling program. This will always be at the forefront of our recycling goals. Increasing diversion rates and recycling success can be achieved by educating the public. The District will continue to use funds from the Education grant for the upcoming year to do recycling education programs throughout District N. The District has a grant application for 2017 for 18 education programs. The District has also received a grant request from the City of Pierce City for Recycling Carts for a joint School/City Recycling project. No specific grant proposals are solicited. All proposals are welcomed, and all grants are evaluated using the same criterial.

3 (a). What resource recovery goals did the district have for the fiscal year period and what actions did the district take to achieve thee goals?

Resource recovery is defined by extracting specific material for new/next use, for example, recycling, composting, and energy generation. Goal: The District's goal is to educate and identify opportunities within the District for resource recovery. (The District's major goal in the past has been the use of recycling trailers to help establish recycling in cities and counties where no recycling has previously existed or to help expand the current recycling programs. The District trailers are currently all in use, and the District does not have any more available. As some cities develop permanent facilities, the District Planners works with other cities to locate these trailers to provide more trailers and to develop a recycling infrastructure within that location). The District approved a grant and is nearing completion for an additional composting building for Hansen's Tree Service/Recycling Center. This building will enable Hansen's to expand their composting business in Stone county. Currently, Hansen's Tree Service is the only composting facility in Stone and Taney counties. (EarthWise Recycling Center at Reeds Spring school is located in Stone County; however, they currently only do Food composting). Hansen's composts Yard Wate, C& D Waste, Animal Waste and Food Waste Composting. With the amount of tourists and constant building of vacation homes in this area, there is a high demand for C&D waste/composting. No specific grant proposals are solicited. All proposals are welcomed, and all grants are evaluated using the same criteria.

3 (b). What resource recovery goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve thee goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

As stated above, the goal is to educate and identify opportunities within the District for resource recover to build the infrastructure within District N. Planner Moseley is constantly working with cities, counties, and various other organizations to help develop, start or implement various recycling programs within District N. Planner Moseley will continue to work with various organization, cities, and counties to help implement or to determine their recycling needs. If no recycling programs exist, Planner Moseley will work to provide them with ideas and suggestions for grant applications, and to work to help them expand their current programs. With the completion of the 2 Electronic Collection Points located in Stone and Taney counties, this will provide much needed resource for Electronic recycling in these areas. Also, if approved a grant for 2017, will place Electronic Collection bins in various locations throughout District N. This will enable the citizens of District N to have better access to Electronic Recycling. The City of Crane is applying for an Electronic Collection Event as well as Paint Collection event. They are hoping with this grant to purchase a Paint mixer which will allow them to mix the paint they collect and paint various city buildings. They are also hoping to help or load the mixer out to other organizations within District N to do a Paint Collection/Recycling Event as well. Crane is

located in Stone County which is in the lake area. There is a high demand for Paint Collection/Recycling in this area. No specific grant proposals are solicited. All proposals are welcomed, and all grants are evaluated using the same criteria.

4. Summarize the types of projects and results during the fiscal year, including previous fiscal years as part of the 5 year reporting. (add additional rows if needed)

	PROJECT #: *	NAME OF PROJECT RESULTING IN TONNAGE DIVERSION FROM LANDFILLS:	COST OF PROJECT:	NUMBER OF TONS DIVERTED:	AVERAGE COST PER TON DIVERTED:
1	N2016-001	District N Operations - project in process not completed	47,500.00		
2	N2016-002	District N Education Program - project in process not completed	2,970.00		
3	N2016-003	Hansen's Tree Service Recycling Center - Clearspan Building - in process not completed	5,468.73		
4	N2016-004	Purdy School District - Loading Ramp for Recycling Center - in process not completed	6,374.00		
5	N2016-005	City of Aurora - Electronic Collection Events	6,930.00	10.0000	693.00
6	N2016-006	EarthWise Recycling Center - 2 Balers - some of project is complete	16,300.00	2.7300	5,970.69
7	N2016-007	All Points Recycling, LLC - Semi-Tractor	18,052.26		
8	N2014-002	All Points Recycling, LLC - Truck Scales	19,950.00		
9	N2012-05	All Points Recycling, LLC - Forklift & Conveyor	19,960.00		
10	N2011-05	All Points Recycling, LLC - Used Semi-Day Cab, Forklift	17,945.00		
11	Total for All Points	Total Cost of Projects - Diversion only for this Year	75,907.26	2,030.9400	37.37

12	N2015-001	District N Operations	47,217.41		
13	N2015-002	Tantone Industries - Conveyor - in process not complete	35,600.00		
14	N2015-003	Tantone Industries - Electronic - in process not complete	4,995.00		
15	N2015-004	City of Branson - Fencing	3,912.00		
16	N2014-003	City of Branson - Forklift	16,500.00		
17	N2014-007	City of Branson - Dumping Forklift Hoppers	2,854.33		
18	Total for City of Branson Recycle Center	Total Cost of Projects - Diversion only for this Year	23,266.33	659.0000	35.31
19	N2015-005	Green Paws via Forsyth Schools - Put Plastic in its Place	2,845.00	0.2500	11,380.00
20	N2015-006	City of Crane - Spring and Fall HHW and Electronics Collections	10,336.74	3.2900	3,141.86
21	N2015-007	All Points Recycling, LLC - Trailer - termed grant			
22	N2015-008	EarthWise Recycling Center - Electronics/Power Washer - in process not complete	5,478.36		
23	N2015-009	Hansen's Tree Service	5,478.36	2,540.3000	2.17
24	N2014-004	Table Rock Lake Water Quality - Lead CRT/TV Cleanup (cleanups were held in 2014)	5,000.00	7.4999	666.76
25	N2014-005	Branson Jr. High Recycle Club - Recycle Containers - diversion for only one year	530.46	7.6500	69.34

26	N2014-006	Taney County - Tire Machine & Caport - Total Cost of Prjoect - Diversion only for this Year	5,629.00	244.0000	23.07
27	N2014-008	Hollister Schools - Recycling Expansion - Total Cost of Project - Diversion for One Year	2,530.58	20.3200	124.54
28	N2014-009	City of Aurora - Trailer Mounted Leaf Loader and Leaf Box - Diversion for only 1 Year	5,000.00	66.2500	75.71
29	N2013-01	District Operations	47,775.65		
30	N2013-02	Education Program for District N			
31	N2013-03	MORA Conference (for the 2013 MORA conference)	3,733.99	0.2830	13,194.31
32	N2013-04	Stone County Commission Recycling Project - Diversion for only 1 year	1,988.35	21.4600	92.65
33	N2013-05	Subgrantee forfeited grant			
34	N2013-06	Southwest R-V Recycle Project- Diversion for only 1 year	14,642.14	9.3900	1,559.33
35	N2013-07	Subgrantee forfeited grant			
36	N2012-01	District Operations	48,406.20		
37	N2012-02	District N Education Programs	5,679.93		
38	N2012-03	MORA Conference 2012 (fees for 2012 conference)	3,800.00	1.3300	2,857.14
39	N2012-04	Hollister Schools	2,720.00	20.3200	133.86

5. Summarize projects not resulting in Tonnage Diversion

LIST PROJECTS BY NUMBER AND NAME NOT RESULTING IN TONNAGE DIVERSION FROM LANDFILLS.	COST OF PROJECT:	MEASURABLE OUTCOMES ACHIEVED FOR THESE PROJECTS:
---	------------------	---

1	N2016-001 - District Operations - currently in process	47,500.00	<p>Funds from the District Operations grant are used to pay for the District Planner's salary, office supplies, office expenses, copier maintenance, internet expenses, travel of the planner, MORA membership dues and conference fees, and bonding, property, worker's comp, MOPERM insurances. During the past fiscal year, the district had one grant call and used/awarded the total amount that was authorized for appropriations. For January through December the total amount of grants equaled \$103,594.99; which was minimum funds of \$95,000 plus an additional of \$8,594.99, which is carryover from previous years. During the year, the District has had a board meeting every month, and conducted one annual council meeting, and one advisory committee meeting. The district also formed a funding committee to research the current funding formula. Planner Moseley visited every subgrantee's location within District N during the fiscal year. Planner Moseley helped at the two electronic recycling collection events held at the City of Aurora. Planner Moseley had a District N Educational booth at the Grace the Earth Day in Lockwood, MO. During the year, the City of Branson won the Ripple Glass Award contest, and received a trailer truck load of insulation. Planner Moseley has worked with several potential grant applicants on ideas, suggestions of grants for their respected areas, and sent out previous grants to use as examples and ideas.</p>
---	--	-----------	--

2	N2016-002 - District N Education Program	2,970.00	12 education programs were held with over 994 people in attendance;however, the grant is still in process. That is over 82 people being educated at each one of the programs. Programs available to all cities, counties, organizations, schools within the District. In addition to this grant, Planner Moseley set up and education booth at the Grace the Earth day in Lockwood, MO in Dade county. Planner Moseley spoke and talked with several residents of that county about recycling. She also had a power point presentation that explained the Solid Waste District and general information about recycling, as well as the recycling opportunities in Lockwood and Dade County. Approximately 100 people were in attendance for this event. For all of our education programs that have been done, the presenters have received top ratings and all have contained positive feedback.
---	--	----------	---

6. Identify separate statistics for items banned from landfills:

LIST PROJECTS BY NUMBER AND NAME RESULTING IN TONNAGE DIVERSION FROM LANDFILLS.	LIST COST OF PROJECT RESULTING IN TONNAGE DIVERSION:	NUMBER OF TONS DIVERTED FROM PROJECT:	AVERAGE COST PER TON DIVERTED:	MEASURABLE OUTCOMES ACHIEVED FOR THESE PROJECTS:
---	---	---	-----------------------------------	---

1	N2015-009 Hansen's Tree Service -Crossbelt Magnet	5,478.36	2,540.3000	2.17	The purchase, installation and production of the Crossbelt Magnet exceeded their expectations. The magnet was installed and operational during the late summer of 2015. The production rates have been better than expected and the time frame matched the time table. The Crossbelt Magnet has allowed Hansen's to process material quicker. They have less ferrous metal contamination, allowing them to accept more organic waste. They have used the magnet to help remove contaminates. They have diverted over 2,540 tons of material with this project.
2	N2014-006 - Taney County - Tire Machine & Carport	5,629.00	244.0000	23.07	Project was complete and everything was up and running by the end of August 2014. To date this project has diverted over 248 tons of material.
3	N2014-009 - City of Aurora - Trailer Mounted Leaf Loader and Leaf Box	5,000.00	66.2500	75.71	This project was completed and in put into place in October of 2014. To date this project has diverted over 68.79 tons of leaves.

7. Identify separate statistics for items NOT banned from landfills:

	LIST PROJECTS BY NUMBER AND NAME RESULTING IN TONNAGE DIVERSION FROM LANDFILLS.	LIST COST OF PROJECT RESULTING IN TONNAGE DIVERSION:	NUMBER OF TONS DIVERTED FROM PROJECT:	AVERAGE COST PER TON DIVERTED:
1	see item #4, with the exception of items listed in #5 and #6.			

8. Describe your district's grant proposal evaluation process.

Grant Review Committee Policies (I have attached/enclosed the Grants projects Evaluation Form)1.The Grant Review Committee shall be made up of members of the District N Executive Board. 2.District Grant Applications will be reviewed and ranked by three (3) member Sub-Committee appointed by the Chairman of the Executive Board. The ranking will be based on objective, point-based criteria developed by the District staff and Executive Board. No Executive Board Member shall participate in ranking of an application submitted by their jurisdiction, agency or organization. 3.The Executive Board may invite the applicants to make a brief presentation before the Executive Board. Applicants should be prepared to justify their project and answer questions. 4.Upon completion of the Sub-committee ranking, presentation and recommendation to the Executive Board, the Executive Board will determine the degree to which funding to any project will adversely affect existing entities in the market segment and assign the final ranking and/or funding of the received applications. 5. The final decision on the grant awards shall be made by the vote of the Executive Board. 6.District grant funds shall not be awarded for projects in a City or County which has not adopted the Southwest Missouri Solid Waste Management District Solid Waste Plan. 7.Projects generally will not be funded on an on-going basis, but will be funded to encourage the creation or start-up of programs. Partial funding may be provided in future years where funds are available and need is documented. The District Plan may provide recommendations for on-going projects which are selected for special funding consideration by the district for a given year. 8. The past grant administration performance of an applicant shall be considered for on-going projects and for applications for different projects from the same applicant. 9.Grant projects are for one year. Grantees may request extensions up to one year to complete the project. Any project exceeding two years requires approval from MDNR Solid Waste Management Program and the District's Executive Board. 10.District Staff will prepare and submit the grant applications to MDNR for approval and release of funds.
